### **Market Introduction and Market Dynamics**

The increased demand for PVC pipes from the commercial & industrial sectors and a rise in government expenditure in the water sanitation projects are the major factors fueling the growth of the PVC pipes market. Also, the growing application of PVC in various industries like the irrigation sector and construction industry owing to its cost-effectiveness, lower cost & durability is driving the market globally. However, the alternatives which are available in the market may hamper the market. Moreover, the growth of the rural areas in developing countries would generate new business opportunities for the PVC pipe market in the future years.

### **Market Segmentation & Crisp Analysis**

The global PVC pipe market is divided into type, application, and geography. By type, the market is divided into chlorinated PVC pipe, plasticized PVC pipe, and unplasticized PVC Pipe. By application, the market is divided into irrigation, water supply, oil and gas, sewage, HVAC and others. By geography, the market is distributed across the various geographical regions such as North America, Europe, Asia-Pacific, and the Rest of the World (RoW).

The country-wise analysis has been also covered under the scope of the report. North America covers the U.S., Canada, and Mexico while Europe covers Germany, Italy, the UK, & the Rest of Europe. Japan, China, India, Australia, and Rest of Asia-Pacific have been analyzed under the Asia-Pacific market. Rest of the world includes Central & South America, the Middle East, and Africa

## **Manufacturers' Competitive Analysis**

The top players operating in the market are frequently investing in research & development and are planning to increase their presence in the untapped emerging economies. Major companies operating in the PVC Pipes Market are Astral Pipes, National Pipe and Plastics, Inc., Advanced Drainage Systems, Inc, Finolex Industries Ltd., Egeplast A. S, China Lesso Group Holdings Ltd., Polypipe Plc, Amanco, Georg Fischer Ltd., Adequa Water Solutions, and others.

## **Scope of the Report**

The scope of the report covers an in-depth analysis of the market in terms of both qualitative and quantitative analysis across the segment as well as cross-sectional analysis of the segments including the geographies and its countries. Key companies operating in this market and their company profile along with market share analysis and competitive scenario is also part of the report. Furthermore, the client information from different industries from the point of view of manufactures has been provided in this report. The data of revenue share, shipment, gross profit, net income have also been included to give a better understanding of the competitors in the PVC Pipes Market.

## **Research Methodology**

Destined by the dedicated team of analysts and experts, we are envisioned to provide you our best in order to plan you're next strategic across several industry verticals. AMR has developed advanced analyst tools and data models to enhance and augment the analysis process. Corresponding to markets, where there is momentous lack of information and estimates, AMR's team of experts and analysts practice specific analyst tools and industry models to translate qualitative and quantitative industry indicators into exact industry estimates. These models also allow analysts to inspect the prospects and opportunities existing in the market to achieve a specific forecast of the market.

The Key Opinion Leaders (KOLs) of the respective industry are interviewed and their insights are matched with our findings and database we have and thus we validate our estimates, forecast and provide you the analysis. We put together our effort and prepare an inclusive questionnaire depending on the title of the market we are tracking and extract the important information we require to validate our findings. Also, we have the top five global knowledge partners such as Bloomberg, S&P Global, and Dow Jones, among others for ultimate data validation, prepared by our research team.
