

WHAT WILL IT REALLY TAKE TO SALVAGE PLANET EARTH...

"Today, we, as a culture, poise on the brink of destruction. It does not matter whether that destruction will come with a dramatic bang or by political upheaval or by the putrefaction of social decay. It will come." LRH (TM)

...from DRUGS?

- * 50% of High School seniors have tried marijuana.
- * 15% have tried cocaine in High School.
- * Drug deaths are highest ever in 1987.
- * In 1985, 158,760 pounds of cocaine was consumed in the U.S.

...from ILLITERACY?

- * 700,000 High School graduates from the 1988 graduating class could not read their diplomas.
- * 67% of High School seniors surveyed saw no reason for profit in business.

...from CRIME?

- * All crime stats, such as murder, rape, and robbery are uptrending.
- * Prisons are overflowing and at highest-ever occupancy.

LRH has developed tech for each of these areas which, for the first time ever on this planet, can handle the heretofore insoluble problems of drug addiction, illiteracy and criminality. When these technologies are brought into broad use they will reverse the dwindling spiral of our society.

But, can we do it in time?

"These same social and economic factors, with their attendant rising stats of brutal crime and ideological pressure, could bring about police states - as they are doing - in which no application of workable tech would be permitted and this whole civilization (as it has done before) could sink into a new dark ages that would swamp any forward motion toward freedom. And there are other factors which make speed imperative. We do NOT have an infinity of time to do the job." LRH

Perhaps as a group we have grown a little too comfortable. Our First, Second and Third Dynamics are well in hand most would agree. LRH tech is broadly available to us and in daily use. The Church organizational structure is strong and expanding daily.

We cannot, however, continue to ignore the Fourth Dynamic as it crumbles around us.

"Unless there is a vast alteration in Man's civilization as it stumbles along today, Man will not be here very long, and none of us will survive. Times must change." LRU

The Fourth Dynamic

Drugs:

There are over 6 million addicts in the United States, with less than 25,000 publically supported beds available to handle them. According to local officials, 50 babies per month are born addicted to drugs in the LA area.

The largest drug rehabilitation facility in the entire world has 750 beds - and it is located in Italy!

Illiteracy:

The total population of the schools worldwide which use the L. Ron Hubbard study technology is 2000 students. There are 84 million students in the U.S.

Crime:

Our jails are filled to capacity and then some, we have the highest prison population in our history. To make matters worse, over 80% of the people imprisoned return to jail as repeat offenders.

How Does All This Apply to You?

As Scientologists (TM) we have a broad responsibility which LRU outlined in his OPEN LETTER TO ALL CLEARS:

"I expect and need your help to carry out the broad mission of de-contaminating this area of the universe. If you wish to help, your first duty is to protect the reputé of the state of Clear by exemplary conduct. Your second duty is to attain OT (TM) as soon as possible. Your third, if you still wish to help, is to become part of the endeavour to clean up this sector of the universe and make it safe not only for ourselves but for the billions of others who have been harmed." LRU

Per the recently released Int Management Bulletin 124, OT IX (TM) will not be available until all Orgs achieve Saint Hill size. A basic policy governing how to accomplish this is HCOPL PROPORTIONATE MARKETING:

"In marketing one must always push *harder* toward the largest bulk of future business. It is peculiar to Scn marketing that you have to push hardest at the lowest levels to make the upper levels come off." LRM

According to LRM in this PL the heaviest level to market to is "Raw public not yet into Scn."

Another key thing to consider, especially when confronting the salvage of an entire planet, is the 'order of magnitude' of the task. "This means how large or how small something is in relation to other things. When one conceives the wrong order of magnitude, all else can fail." LRM

Therefore, *YOUR SURVIVAL* is directly linked to the broad, rapid delivery of LRM tech to the masses. As Scientologists we have the responsibility because we have the tech. If we don't do it, no one else will.

Besides, whose 4th Dynamic is it, anyway?

How will you accomplish this? What can you do to assume a cause point on this disaster area we call the Fourth Dynamic? Fortunately, a bold new solution has been created.

The Solution

A new organization has been brought into being by Int Management in order to achieve LRM's goal of clearing this planet.

It is called the Association for Better Living and Education, or A.B.L.E. (TM). It succeeds the Social Coordination Network, which was established by LRM in 1974 to handle the dissemination and delivery of the secular technologies developed by LRM.

A.B.L.E., barely weeks old, has already begun to tackle the awesome order of magnitude for salvaging planet Earth;

* Narconon (TM) has just signed the lease on a 3000 acre, 1400 bed facility. When it opens by March 13, 1989, it will become the largest drug rehab facility in the world.

* We are looking for \$3-5 million buildings right now in order to establish Flagship Narconons in LA and DC.

* Work is underway to locate and purchase a 1000 acre center for Applied Scholastics International (TM) where teachers can be trained on the study tech.

This is just the begining, a scratch on the surface of the order of magnitude necessary to de-contaminate this society.

This is it, the big push to salvage and ultimately to clear this planet, spearheaded by the massive implementation of LRH tech throughout society.

The intention is to create the most massive thrust of planetary dissemination ever seen. A.B.L.E.'s function is to broadly promote the workable technologies of LRH as solutions to the problems of drugs, crime and illiteracy, and to push massive quantities of funding to the groups using LRH tech to solve these problems; Applied Scholastics, Narconon, Crimanon (TM) and the Way to Happiness Foundation.
